

Homepage

- Can remain professional and sleek but needs a more modern edge (colors, font, graphics, etc.)
- Add feature productions carousel (Roots Picnic, Rolling Loud, J. Cole, Playboi Carti, Don Toliver, Mary J. Blige, Jill Scott, etc.)
- The homepage is extremely wordy. Viewers should be able to tell who we are, what we do, why we're the better choice, and how to contact us quickly and easily. The mission statement and background info might be better housed in an About Us tab or near the bottom of the page
 - Example stats to feature:
 - 40+ Years Experience
 - 500+ Productions
 - Nationwide Staffing
 - Tours • Festivals • Corporate Events
- Include a statement regarding why GEP is the right choice
- The flipping card services should be redesigned to be properly aligned and consistent
- The production staffing bullet points look like dropdowns — should be listed differently
- Typos: "Coordiinators" → Coordinators + Video Techs is listed twice
- The pictures under "Our Storage Facilities" should be updated
- Talent Bookings needs an email
- Twitter should be connected or removed
- Do we need two menu buttons? (one top right, one top left)
- Possibly add 3-5 testimonials or real reviews from clients

About Us

- Replace ticket heading with something simpler or more relevant
- Our Story — consider including a headshot of Victor
- Our Team — current, consistent headshots needed + bios may also need to be updated (professional headshots, years in industry, notable tours/productions, favorite projects, LinkedIn profiles + GEP email contact)
- Team member "Read More" pages need to be updated for consistency

Services

- Needs real GEP photos that are relevant
- Services need dedicated pages that work, for example Production Management should include:
 - What's included
 - Past projects
 - Industries served
 - Contact us

Storage

- Needs all real, relevant GEP images
- Needs to reflect consistency across all website pages
- Multiple "Contact Us" buttons (may not be an issue but worth reviewing)

Events

- Page is empty / non-functional

Contact Us

- Formatting is inconsistent
- Each department needs an updated phone number + email

Overall

- Check for consistency throughout
- Replace stock photos with real GEP images

- Update and verify all contact information
- Make sure all links work
- Check for typos
- More white space
- Full-width hero images
- Subtle animations
- Hover effects
- Darker overlays on images
- Cleaner cards
- Better spacing
- Consider adding a "Careers — Join the Crew" section
